Additional comments

- Timely information/topics
- Better access needed (car parking)
- Disappointing turnout from the public. Please make more effort to publicise events.
- Keep involving the public and stay focused on the goals which are good – without the cost of things becoming the main issue
- Difficulty hearing some speakers
- Funding for small rural practices has been cut so how can they provide all the services we want to them to?
- Don't forget the role family carers will play to ensure you reach your priorities. I think it would be good to acknowledge carers more in your priorities/strategy. Remember the voluntary sector when commissioning services as an excellent community based support and value for money resource.
