

Pre Training Questionnaire

Care Home	Name	Position

Have you had any pressure ulcer prevention training before?	No	Yes. If yes, when and for how long:
What is a pressure ulcer?		
Who is at risk of a pressure ulcer?		
What equipment should be implemented to prevent pressure damage?		
What areas are at risk of pressure damage?		
Why should we reposition our residents and how often should we do this?		
What damage does urine, faeces, sweat and wound leakage cause?		
What barrier products should be used to prevent a moisture lesion?		
Why is a good healthy well balanced diet necessary?		
How do you recognize a resident who is nutritionally at risk?		
On a scale of 1– 10, how confident do you feel in pressure ulcer prevention? (1, no confidence & 10, very confident)
