# Deep Dive Report

What is it?

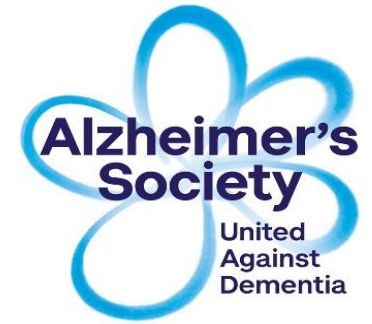

What is on offer at your surgery  
at present for those affected by  
dementia?

# Dementia Forward & Alzheimer's Society

Who are we and what do we offer?

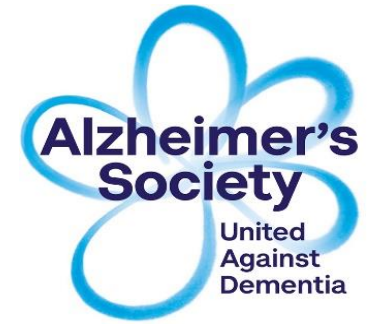

# Dementia Forward

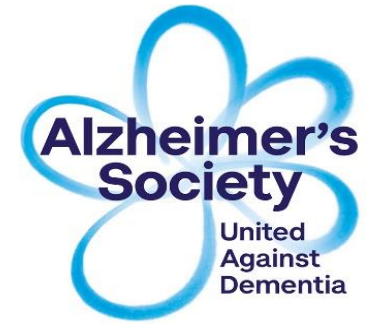

## The critical points where we see people requiring extra support are usually:

- Concerns about memory problems
- Coming to terms with the diagnosis
- What a diagnosis means
- Loss of independence
- Driving
- Financial support
- Looking after general health and wellbeing
- Changing and sometimes challenging behaviors
- Medication concerns
- Nutrition
- Personal care (Incontinence)
- Carer stress / exhaustion
- Going into long term care
- End of life – we have a support network for the carer 'moving forward' and this can begin as a person enters long term care so that as things progress the peer support is already in place
